Dear Dr McGeorge

Will you kindly give me information regarding  
Burnell W Andrews, graduated 1867. died in Camden 1912.

He practiced in Camden

Refer me to some one who can enlighten me.

It is of very great importance that the record of our  
alumni be as complete as we can make it.

Any information will be very thankfully received.

Yours very sincerely,

Thomas L. Bradford, M.D.,  
Hahnemann Medical College,

Philadelphia, Pa.

Philadelphia, Pa., Dec 9 1916 1916.

Dr. Burnell W. Andrews was the son of Dr. J. Richardson  
Andrews who was the pioneer of Homoeopathy in Camden.  
He was born in Camden in 1846. He attended the Friends  
School of Philadelphia, and studied medicine  
under his father. He attended medical lectures for two years  
Long Island College Hospital, and then entered the  
Homoeopathic College of Philadelphia, and was graduated  
in that college in 1867. He began practice in the  
office formerly occupied by his father, and remained there  
until he died in June, 1912.

He was a member of the New Jersey State Homoeopathic  
Society, New Jersey Homoeopathic Society, and one of the founders of the  
Camden Homoeopathic Hospital and Dispensary Association, in 1885.  
He was an expert physician, and was eminently successful  
treating small pox, and the Homoeopathic physicians now living  
in Camden have him to thank for the fact that they have not  
suffered from this loathsome disease. Dr. Andrews had a

very sensitive touch and could tell, even in a pale  
or subdued light, any skin disease without any  
tactile touch. He died at his home and was badly  
suffered by many of his life time patients.

We are filled with what I  
thought would be of interest  
to you about Dr. P. W. Anderson  
a man and object of inquiry.

Looking over some old papers  
I found the following copies of  
Obituary notices read before the

were graduates of our own

When you are through with

Philadelphia, Pa., June 5 1916.

Doctor Ephraim K Bancroft was present when we  
organized the West Jersey Home Rule Society in May 1869  
and attended one or two meetings also. He practiced  
in Mount Holly, but an old friend Walter Wood the  
only member of the American Institute practiced  
in Mount Holly, and having a ~~quite~~ general manner  
had most of the work there. Dr Bancroft moved  
to Jersey town 45 years ago and has been dead a  
great many years.

Did you know that in May 1866 the New  
Jersey Branch of the American Institute of Homoeopathy  
was organized. The first President was Dr John R Andrews  
of Camden who died in 1866.

## Obituary

Jedediah Marcus Barton M.D.

Dr. J. Marcus Barton died on Sept, 30, 1914 at his home in Worcester Mass. He had been poorly for about three years following an attack of cardiac dilatation but was able to keep on with his professional duties until three months before his death.

Dr. Barton was a native of Worcester, and was the son of Jedediah and Mary (Lathrop) Barton. He received his medical education at the New York Hom. Med. College and the Hahnemann Medical College of Philadelphia from which he was graduated in 1870. After

practising for a short time in Orange N.J. he came to Worcester to act as assistant to Dr. William B. Chamberlain. Three years later

he opened an office of his own at # 6 Elm Street On March 1

1910 Dr. Barton was given, with Dr. J. K. Warren, also of Worcester, a complimentary dinner with a beautiful "Loving Cup" in recognition of his 40th anniversary in practise. Dr. Barton was a former

President of the Worcester County Homoeopathic Medical Society, a

member of the A. I. H. and the Mass. Hom. Medical Society. He was

attending physician at the Worcester Hahnemann Hospital and a

32d. degree Mason.

He leaves his widow, Mrs. Annie R. (Warner)

Barton and three sisters.

There no children.

My dear Mrs. Huckins:

I am taking the liberty of sending you a letter which I received from Dr. T. L. Bradford of the Hahnemann Medical College of Philadelphia. I think the letter will explain itself without any word from me. I wish, if possible, you would give Dr. Bradford the information he requires relative to your father and his practice of medicine. Dr. Bradford is the librarian of the college and is also writing a history of the alumni of old Hahnemann. If you will kindly attend to this at your earliest convenience, I am sure it will be very much appreciated by the Doctor.

Yours very sincerely,

W. E. Fellows

My dear Doctor:-

Regarding the report of the Alumni for the forthcoming book, I remember receiving a blank for information, but cannot for the life of me remember whether I filled it out and returned it or not.

I am unable to find the blank, but wish to be sure regarding the matter, as I have no desire to be classed among the "dead ones".

Thanking you for the courtesy of an early reply, I remain,

Very truly yours,

Dear Sir:-

Enclosed please find information wanted in reference to Dr. Edmund Chew. I am sorry that I have not been able to send this information sooner.

Dr. Chew was stricken with Epilepsy shortly after his graduation and with the expectation of a few month's practice in Phila., he was unable to continue his work. For seventeen years he suffered with Epilepsy until his death. I am unable to give you the exact location of his office in Phila., as he had just about located when he was taken sick, however I think the information given will be sufficient.

Very truly

# The Krefeld Society

## CIRCULAR OF INFORMATION

In response to an invitation to take part in the celebration of Founder's Week in October, 1908, as representatives of the First Settlers of Germantown, a number of gentlemen met on the evening of October 3rd, and arrangements were made to participate in the celebration of the coming week.

The sentiment appeared unanimous that the time was an appropriate one for founding a Society for honoring the lives and deeds of the First Settlers of Germantown, and for securing and preserving information concerning them and their descendants, as well as for social enjoyment among the members, and the Krefeld Society was the outcome of that meeting.

The Society was organized and a Constitution and By-laws adopted, and eligibility was confined to:—

Any male persons over twenty-one years of age, of good character, who are lineally descended from one or more of the following:

Lenart Arets,  
Johannes Bleikers,  
Peter Keurlis,  
Thones Kunders,  
Jan Lenfen,  
Jan Lucken,  
Abraham Op den Graeff,

Dirck Op den Graeff,  
Herman Op den Graeff,  
Francis Daniel Pastorius,  
Jan Seimens,  
Willem Streppers,  
Abraham Tunes,  
Reynier Tyfon,

the original heads of families who settled Germantown. The number of members at any one time shall not exceed three hundred.

Since the founding of Germantown, the first permanent settlement made by German subjects, in North America, on October 25th, 1683, the number of descendants of those people has reached thousands, many of whom occupy the highest positions in the social as well as the business world, and owe their success to the sterling character and exemplary lives of their Germantown ancestors.

The Annual Meeting of the Society is held on the 6th day of October, in each year, the day on which the Good Ship **Concord** came to her dock in the Delaware River in 1683, bringing thirteen heads of families who on the 25th of the month founded Germantown under the leadership of Francis Daniel Pastorius.

All correspondence should be addressed to the secretary from whom further information and application blanks may be obtained.

I notice announcement in Hahnemannian that you are getting out another list of <sup>Graduates</sup> ~~alumni~~ of Hahnemann College; I suppose similar to the one published in December 1906. I would like to have one when published. If there is any charge for same, please let me know and I will remit.

As my course at Hahnemann was a P. G. I suppose that is the reason I did not receive one of the blanks you sent out for information. You have me all right in the 1906 book, excepting that I left Homestead in 1907 and have been up here since.

RDR #1 Sanford, Florida,

November 18, 1916.

Mr dear Doctor:

I fancy I must be one of the "Old Guard. "Reckon", as we say here, that the ones, if any, remaining of my '59 class, are few and probably far between, scattered far apart.

Some years ago I inquired of the Surgeon General's Office if there were, or had been, anyone beside myself passed by the Examining Board with only a diploma from a Homeopathic school but all they would tell me was that "in accordance with law" such a diploma was no bar to an examination before the Regular Board; but I fancy it has been a bar to a favorable report or commission. Do you know how that stands? Of course, one can not say without a good acquaintance with the "old regular" methods, nor can he use our remedies unless he buys and handles them himself--and if he did, at the next five years examination, I judge he wouldn't pass. The British Board watched me pretty sharp but I kept my ship clean--had to do it by illegal force--but I did, and did not use the ship medicine chest, and when war laid up the line I hunted out the records and got a certificate; had the best health and sanitary record of any of the lines and that helped to get my name on the upper third of the class merit roll of the army register, and I was the youngest --only 23. Old Doctor Beakly taught me to be ambidextrous, and that's a help when there are a lot of wounded to be looked

after. I had the Union Hotel and Patent Office hospitals and was second at Point Lookout, and considering that we didn't have anti-sepsis, hypodermics and clinical thermometers to help us we did pretty well. Give you a pointer: Typhoid fever patients here, treated as I treat them, don't die, but they used to do so along the Hudson.

This fine climate enables one to live in the open. I have an unchinked log-house. I lately walked 18 miles--part of it through the palmetto scrub--so I rate myself able bodied at 79. If God has taught the animals to starve themselves when sick, especially if very sick, why should we not take the hint; I do starve them into getting well--if I am permitted to do it--which very often I am not. I am glad that I no longer have to dread the midnight calls to hurry off to see someone who could and should have sent early in the evening; and to witness a hard fought struggle to save one who wasn't to be saved. I now enjoy seeing my banannas, guavas, pineapples, grapes and peaches grow and blossom and fruit. It beats feeling pulses and looking at tongues, etc. Hope you will, bye and bye, arrive at the port and harbor where you can rest--if you want to.

I am fortunate in neither fearing for the present nor the future, here or after, and I reckon it's worth living to get to that status. If you should ever find yourself enjoying a trip South as far as this, look me up and I will be pleased to say "howdy". *Will*

WELCH, W. VA. January, 15, 1917.

T.L. Bradford, M.D.,  
1862 Frankford Ave.,  
Philadelphia, Penna.

Dear sir- Letter came to hand from Dr. Daniel, of Welch West Va. making inquiry concerning my Brother Norman Felton Edwards. My brother was taken ill on the 9th. of January, 1907; and I am very sorry to relate of his Death which occurred on the 13th., of the same month. This occurred in Welch W. Va.

My brother had a very nice Medical practice, and was getting along very nicely when he was taken ill; We had the best Medical men attending him during his illness that could be gotten in this Section of the State or any where else in this State; One of them is now the present Governor, Dr. H. D. Hatfield of West Va., who is a particular friend of mine, and was also a close friend of my Brother's. The funeral took place in Ashland, Penna.

Trusting this will be satisfactory, I am Yours Truly,

*J. W. Edwards*

DR. HARVEY FARRINGTON  
922 MICHIGAN BLVD. BLDG.  
CHICAGO

Jan. 15<sup>th</sup> - 1917

Dear Mr. Bradford:

This enclosed list of ques-  
tions re my Uncle Walter was  
forwarded to an address by Ernest,  
the latter part of November. I was  
away on a hunting trip in the wilds  
of Wisconsin at the time (in all re-  
spects a successful trip by the way) and  
some how was misled. I am very sorry  
for the delay but more so because I  
can give you practically no inform-  
ation about this man. Now I do  
know to whom to refer you. I saw  
him several times when he came to  
see my father - usually to beg for some  
money. When young I was told he  
had a rich tenor voice and was very  
popular with a fast act who got  
him to drinking. This led the family  
of the beautiful girl to whom he was  
engaged to forbid their marriage and  
he left and took service in the U.S.  
Navy. This took him all over the  
world. How long he practiced, when  
he returned the navy I cannot say.

it will be because you have not furnished it.

Very cordially yours,
